

# Development Scaffolding with Code Snippets, Item Templates and Project Templates

---

## Directory and file locations for snippets and templates

---

### Designer widget plugins locations:

- Copy the designer widget plugin (usually qscintillaplugin.dll)
  - For standalone designer, copy to: C:\Qt\Tools\QtCreator\bin\plugins\designer
  - For Qt Creator internal designer, copy to C:\Qt<QT\_VERSION><BUILD\_KIT>\plugins\designer
- Copy dependencies to:
  - C:\Qt<QT\_VERSION><BUILD\_KIT>\bin
  - C:\Qt\Tools\QtCreator\bin

### Snippets location:

- snippets.xml  
C:\Users<USER\_NAME>\AppData\Roaming\QtProject\qtcreator\snippets\snippets.xml

### Custom templates:

---

- Copy from: C:\Qt\Tools\QtCreator\share\qtcreator\templates\wizards
- Copy to: C:\Users<USER\_NAME>\AppData\Roaming\QtProject\qtcreator\templates\wizards
- Add keyboard shortcuts for *Inspect* (typically META-'F11') and *Factory.Reset* (typically META-'F11')
- Use Creator with -customwizard-verbose on the command line
